No. 2-3/2011-Statistical (Part – III)
Government of India
Ministry of Consumer Affairs, Food and Public Distribution
Department of Food & Public Distribution
Directorate of Sugar and Vegetable Oils

Krishi Bhawan, New Delhi
Dated the 10th June, 2024

To
      CEO/MDs/ of all Sugar Mills.

Subject: Immediate Action Required: API Integration of ERP/SAP Systems with NSWS Portal

Sir/Madam,

As you are aware that all operational sugar mills have successfully registered on NSWS portal and filing monthly information as per P II Proforma on the NSWS Portal only in the current season 2023-24. This has helped Directorate of Sugar and Vegetable Oils in getting timely information about sugar and ethanol production and dispatch by mills.

2. To take the digital governance initiative further, the Government has decided to connect all sugar mills ERP systems with NSWS portal using APIs to avoid any manual data punching in order to ensure data accuracy, avoiding human errors and the elimination of redundant data. The information sought through API will be same as in existing PII Format and no additional information is being sought through APIs.

2. In this regard, a meeting chaired by the Joint Secretary (Sugar) was held on June 5, 2024, where representatives from group sugar mills, various listed companies, and Invest India participated. During this meeting, the importance of API integration was emphasized, and it was underscored that this task must be accorded Top Priority. Pilot testing for API integration has already been successfully completed this week.

3. Following steps shall be followed for API Integration:

    a. Development of a Module:

        i. Each sugar mill must develop a module that can seamlessly interact with the NSWS portal.

        ii. This module should be an exact replica of the P-2 form with the same field validations as in the NSWS portal.

    b. Documentation:

        i. Enclosed with this letter are the API documentation and validation sheet of P-2 form for your reference.

ii. It is crucial that these documents are reviewed thoroughly by Technical Team of the Organisation to understand the requirements and technical specifications.

c. Testing:

i. Once the functionality is developed, a UAT/Postman server will be provided for testing purposes.

ii. Any issues or difficulties in understanding the API document should be reported immediately to ensure timely resolution.

4. All sugar mills are requested to prioritize this integration process and complete it within the next two months. It is critical to adhere to this timeline to ensure seamless data flow and operational efficiency across the sector.

5. Your prompt action and cooperation are essential for the successful implementation of this initiative. For any further assistance or clarification, please contact Shri Sudhir Yadav, Section Officer (email id: usspd-fpd@gov.in / sostat.dsvo@gov.in).

Yours faithfully,

(Sangeet)
Director (Sugar)

National Single Window System

P2 Form API Document
Version 1.1
22 January 2024

Confidential Statement

This document is issued under the authority Invest India, Government of India. Duplication and distribution of this document without an authorized release is strictly prohibited.

Every person of the organization is responsible for ensuring the document's confidentiality. The custodian of the document will ensure that the document is continually updated with amendments that may be issued from time to time.

Any loss or miss-use of the document must be reported promptly to the head of the organization.

Document Revision List

Customer: Invest India, Investment Promotion and Facilitation Agency

Project: National Single Window System

Document Name: "P2 Form API document"

Revision Details

Version No.	Revision Date	Revision Description	Page No	Need for Change	Change Type (Add/Modify/Delete)
1.0	22-08-2023	Initial Release	NA	New Requirement	NA
1.1	22-01-2024	Format updated	NA	NA	Modify

Purpose

The purpose of this document is to define the approach for SAP/ERP systems of Investors to fill P2 form fields in NSWS via API.

Intended Audience
The intended audience of the document is:
- Ministry/Department Associated with NSWS
- Investors filling P2 form
- NSWS Project Team

References
- Based on the multiple meeting held with Invest India and Department.

List of Abbreviations

The following table represents the abbreviation used in the document:

Abbreviation	Expansion
API	Application Programming Interface
HTTP	Hypertext Transfer Protocol
IP	Internet Protocol
JSON	JavaScript Object Notation
NSWS	National Single Window System
NSWS	National Single Window System
REST	Representational State Transfer
SSL	Secure Sockets Layer
SWS	Single Window System

Important points: -

1. Sugar mill must implement all the validations mentioned in "P2 form validation" sheet at their end.

2. Sugar mill must send the values of all mandatory form fields via API.

3. For the form fields which can be added multiple times (**'6.3 Internal transfer of raw sugar within a group'**, **'6.4 Internal transfer of white sugar within a group'**, **'6.5 Sale of raw sugar to other sugar mills for domestic purpose'**), Sugar mill must send the value of 'serialNumber' key in the API. Please refer below section for the API structure.

P2 Form API Details: -

API Description: - NSWS API for SAP/ERP systems of investors to fill P2 form fields in NSWS portal.

API owner: - NSWS

URI: - https://uat-nsws-mnstrportal.investindia.gov.in/nsws_license/saveP2Data

HTTP method: - POST

Content-type: - application/json

Header: - access-id, access-secret, api-key

Approval ID -	M009_D001_A076
Approval Name -	P2 Form
Form ID -	F01554
Form Name -	P2 Form (Directorate of
SWS ID -	SWS ID of Sugar Mill registered on NSWS

Section Name	Group Name	Field Name	Mandatory / Non mandatory	Field Type	Values allowed	Validation / Formula	Error message configured on NSWS
Form applied for -		Sugar Season	Mandatory	Single choice dropdown	2023-24		
		Month	Mandatory	Single choice dropdown	October November December January February March April May June July August September	Starts from October and allows incremental month till current month minus one	
Sugar Mill Details		Name of the Undertaking/Group	Mandatory	Alphanumeric	Minimum character = 0 Maximum character = 200	To be validated from - Form - Registration for New Sugar Factory (SIGN UP FORM) Section - Sugar Factory Registration Field - Name of the Undertaking/Group	
		Plant Name	Mandatory	Alphanumeric	Minimum character = 0 Maximum character = 200 Refer Plant name and code master	To be validated from - Form - Registration for New Sugar Factory (SIGN UP FORM) Section - Plant Details Field - Plant Name **Plant Name and Plant code should be the same with which sugar mill (SWS ID) has**	
		Plant Code	Mandatory	Numeric	Minimum character = 3 Maximum character = 5 Negative values not allowed Refer Plant name and code master	To be validated from - Form - Registration for New Sugar Factory (SIGN UP FORM) Section - Plant Details Field - Plant Code **Plant Name and Plant code should be the same with which sugar mill (SWS ID) has**	
		State	Mandatory	Single choice dropdown	Refer State Master sheet	To be validated from - Form - Registration for New Sugar Factory (SIGN UP FORM) Section - Plant Details Group - Plant Address Field - State	

Cane Crushed		Capacity (In TCD for sugar mills/Tons Per Day (TPD) for refineries)	Mandatory	Decimal	2 digits after decimal Minimum character = 0 Maximum character = 10 Negative values not allowed	To be validated from - Form - Registration for New Sugar Factory (SIGN UP FORM) Section - Plant Details Field - Cane Crushing Capacity (In TCD for sugar mills/Tons Per Day (TPD) for refineries)	
		Cane Crushed - During the Month (MT)	Mandatory	Decimal	2 digits after decimal Minimum character = 0 Maximum character = 200 Negative values not allowed	Validation: (Cane crushed <= Capacity * 30 * 1.3) Popup message to be shown. Form submission	Popup Message – Cane crushed should not be more than 130% of the crushing capacity
		Cane Crushed - Cumulative figures upto the Month end (MT)	Mandatory	Decimal	2 digits after decimal Minimum character = 0 Maximum character = 200 Negative values not allowed	Formula = previous month's form value of 'Cane Crushed - Cumulative figures upto the Month end (MT)' + current month form value of 'Cane Crushed - During the Month (MT)'	
2. Production of white / refined / Raw Sugar from Domestic sources		Select	Non Mandatory	Multichoice dropdown	2(I). White / Refined Sugar, 2(II). Raw Sugar, 2(III). Procured Sugar, 3(1) Diversion/sale of B-heavy/Syrup/sugarcane juice/sugar ,		
	2(I) White / Refined Sugar Entire group is visible when '2(I). White / Refined Sugar' is selected in 'Select' field above	a) From Cane - During the Month (MT)	Conditional Mandatory	Decimal	2 digits after decimal Minimum character = 0 Maximum character = 200 Negative values not allowed	Validation: Sum of 'From cane' in 2(I)a) and 2(II)a) should be less than or equal to 14% of [Cane Crushed - During the Month (MT)] Popup message to be shown. Form submission will not be blocked.	Popup Message - Production of white/refined sugar from cane should be less than or equal to 14% of cane crushed.
		a) From Cane - Cumulative figures upto the Month end (MT)	Conditional Mandatory	Decimal	2 digits after decimal Minimum character = 0 Maximum character = 200 Negative values not allowed	Formula = previous month's form value of 'a) From Cane - Cumulative figures upto the Month end (MT)' + current month form value of 'a) From Cane - During the Month (MT)'	
		b) From Reprocessing unmarketable old Sugar - During the Month (MT)	Conditional Mandatory	Decimal	2 digits after decimal Minimum character = 0 Maximum character = 200 Negative values not allowed	Validation: Value should be less than or equal to sum of previous month's closing stock of BISS in Factory Premises and Outside Godowns in section 'Stock of Sugar (In MT)'	Error message - Production of white/refined sugar from reprocessed unmarketable old sugar should be less than or equal to previous month's available BISS sugar
		b) From Reprocessing unmarketable old Sugar - Cumulative figures upto the Month end (MT)	Conditional Mandatory	Decimal	2 digits after decimal Minimum character = 0 Maximum character = 200 Negative values not allowed	Formula = previous month's form value of 'b) From Reprocessing unmarketable old Sugar - Cumulative figures upto the Month end (MT)' + current month form value of 'b) From Reprocessing unmarketable old Sugar - During	
		c) From raw procured from other domestic sugar mills - During the Month (MT)	Conditional Mandatory	Decimal	2 digits after decimal Minimum character = 0 Maximum character = 200 Negative values not allowed		
		c) From raw procured from other domestic sugar mills - Cumulative figures upto the Month end (MT)	Conditional Mandatory	Decimal	2 digits after decimal Minimum character = 0 Maximum character = 200 Negative values not allowed	Formula = previous month's form value of 'c) From raw procured from other domestic sugar mills - Cumulative figures upto the Month end (MT)' + current month form value of 'c) From raw procured from other domestic sugar mills -	

	c(1) From transferred white sugar from other domestic sugar mills - During the Month (MT)	Conditional Mandatory	Decimal	2 digits after decimal Minimum character = 0 Maximum character = 200 Negative values not allowed		
	c(1) From transferred white sugar from other domestic sugar mills - Cumulative figures upto the Month end (MT)	Conditional Mandatory	Decimal	2 digits after decimal Minimum character = 0 Maximum character = 200 Negative values not allowed	Formula = previous month's form value of 'c(1) From transferred white sugar from other domestic sugar mills - Cumulative figures upto the Month end (MT)' + current month form value of 'c(1) From transferred white sugar from other domestic sugar mills - During the	
	c(2) From Raw Sugar used from own Stock - During the Month (MT)	Conditional Mandatory	Decimal	2 digits after decimal Minimum character = 0 Maximum character = 200 Negative values not allowed	Validation - Value should be less than or equal to sum of previous month's closing stock of Raw Sugar in Factory Premises and Outside Godowns in section 'Stock of Sugar (In MT)'	Error message - Production of white/refined sugar from raw sugar should be less than or equal to previous month's available raw sugar
	c(2) From Raw Sugar used from own Stock - Cumulative figures upto the Month end (MT)	Conditional Mandatory	Decimal	2 digits after decimal Minimum character = 0 Maximum character = 200 Negative values not allowed	Formula = previous month's form value of 'c(2) From Raw Sugar used from own Stock - Cumulative figures upto the Month end (MT)' + current month form value of 'c(2) From Raw Sugar used from own Stock - During the Month
